

Registered pharmacy inspection report

Pharmacy name: H.A. McParland Ltd.

Address: 306 Trelawney Avenue, Langley, SLOUGH, Berkshire, SL3 7UB

Pharmacy reference: 1029035

Type of pharmacy: Community

Date of inspection: 21/08/2025

Pharmacy context and inspection background

This pharmacy is situated alongside other local shops in a residential area of Slough. It is one of 28 pharmacies as part of an independent group of pharmacies. It dispenses NHS prescriptions and provides a range of other NHS services including the Pharmacy First Service, the Hypertension Case Finding service, the contraception service, the New Medicines Service and supervised consumption. The pharmacy offers a private travel and weight loss clinic. It also offers a face-to-face prescribing service, but only a relatively small number of prescriptions are issued. And it prepares multi-compartment compliance packs for people needing help taking their medicines and delivers medicines to some people.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in September 2015.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 1.6

- Although the pharmacy's prescribing service appears to be low volume, the pharmacy does not record consultation notes for the prescriptions issued. In addition, it does not always make a record about the prescriber for the private prescriptions it dispenses. Its responsible pharmacist record is not always completed. And it does not record all the information it needs to about medicines it supplies against Patient Group Directions (PGDs). For example, some of its weight loss treatment forms did not always record details about weight when a repeat supply was made. And some answers on the forms were unclear, for example questions were sometimes just answered with a tick. Some vaccination forms were missing a record about any advice given.

Standards that were met with areas for improvement

Standard 1.1

- The pharmacy has standard operating procedures (SOPs). But some of the SOPs available to the team have not been reviewed recently. So, they may not reflect current best practice.

Standard 4.2

- The pharmacy dispenses medicines into multi-compartment compliance packs safely. But it does not keep clear audit trails for this service, for example, it does not always record the communication with prescribers about a person's medicines.

Standard 4.3

- The pharmacy generally stores its medicines safely. But it does not record the checks it makes about the expiry dates of its medicines so it cannot always demonstrate that the appropriate checks are made.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: Standards not all met

Table 1: Inspection outcomes for standards under principle 1

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
1.1 - The risks associated with providing pharmacy services are identified and managed	Met	Area for improvement
1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored	Met	
1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability	Met	
1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate	Standard not inspected	
1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided	Met	
1.6 - All necessary records for the safe provision of pharmacy services are kept and maintained	Not met	
1.7 - Information is managed to protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
1.8 - Children and vulnerable adults are safeguarded	Met	

Principle 2: Staff are empowered and competent to safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 2: Inspection outcomes for standards under principle 2

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
2.1 - There are enough staff, suitably qualified and skilled, for the safe and effective provision of the pharmacy services provided	Met	
2.2 - Staff have the appropriate skills, qualifications and competence for their role and the tasks they carry out, or are working under the supervision of another person while they are in training	Met	
2.3 - Staff can comply with their own professional and legal obligations and are empowered to exercise their professional judgement in the best interests of patients and the public	Met	
2.4 - There is a culture of openness, honesty and learning	Standard not inspected	
2.5 - Staff are empowered to provide feedback and raise concerns about meeting these standards and other aspects of pharmacy services	Standard not inspected	
2.6 - Incentives or targets do not compromise the health, safety or wellbeing of patients and the public, or the professional judgement of staff	Standard not inspected	

Principle 3: The environment and condition of the premises from which pharmacy services are provided, and any associated premises, safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 3: Inspection outcomes for standards under principle 3

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
3.1 - Premises are safe, clean, properly maintained and suitable for the pharmacy services provided	Met	
3.2 - Premises protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
3.3 - Premises are maintained to a level of hygiene appropriate to the pharmacy services provided	Standard not inspected	
3.4 - Premises are secure and safeguarded from unauthorized access	Met	
3.5 - Pharmacy services are provided in an environment that is appropriate for the provision of healthcare	Standard not inspected	

Principle 4: The way in which pharmacy services, including management of medicines and medical devices, are delivered safeguards the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 4: Inspection outcomes for standards under principle 4

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
4.1 - The pharmacy services provided are accessible to patients and the public	Met	
4.2 - Pharmacy services are managed and delivered safely and effectively	Met	Area for improvement
4.3 - Medicines and medical devices are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; supplied to the patient safely; and disposed of safely and securely	Met	Area for improvement
4.4 - Concerns are raised when medicines or medical devices are not fit for purpose	Met	

Principle 5: The equipment and facilities used in the provision of pharmacy services safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 5: Inspection outcomes for standards under principle 5

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
5.1 - Equipment and facilities needed to provide pharmacy services are readily available	Met	
5.2 - Equipment and facilities are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; and appropriately maintained	Standard not inspected	
5.3 - Equipment and facilities are used in a way that protects the privacy and dignity of the patients and the public who receive pharmacy services	Standard not inspected	

What do the summary outcomes for each principle mean?

Finding	Meaning
✓ Excellent practice	The pharmacy demonstrates innovation in the way it delivers pharmacy services which benefit the health needs of the local community, as well as performing well against the standards.
✓ Good practice	The pharmacy performs well against most of the standards and can demonstrate positive outcomes for patients from the way it delivers pharmacy services.
✓ Standards met	The pharmacy meets all the standards.
Standards not all met	The pharmacy has not met one or more standards.
