### Standards not met

#### Standard 2.1

- Although the pharmacy is generally maintained in a tidy and organised manner, there is a significant back log of prescriptions waiting to be dispensed. This indicates there may not be enough, appropriately trained team members to manage the pharmacy's workload adequately. This could mean that people do not always receive their medicines when they are expecting

them. This could potentially result in delays to their treatment.

## **Standard 2.2**

- A pharmacy team member has not been enrolled onto an accredited training course. This means they may not have the right skills and qualifications to undertake their role safely.
