

Registered pharmacy inspection report

Pharmacy name: Lymm Pharmacy

Address: 12 The Cross, LYMM, Cheshire, WA13 0HP

Pharmacy reference: 1029643

Type of pharmacy: Community

Date of inspection: 11/11/2025

Pharmacy context and inspection background

The pharmacy is in the centre of the village of Lymm, which is situated outside of Warrington. It mainly dispenses NHS prescriptions, some of which are assembled off-site, using automation, at a hub pharmacy owned by the same company. It provides some NHS services such as Pharmacy First and seasonal flu and covid vaccinations.

This was a reinspection following an inspection in August 2025 where the pharmacy did not meet Standards 1.1 and 1.2. This reinspection focused mainly on those Standards which had previously not been met. Since the previous inspection, the pharmacy has made some improvements to the way it manages risk. Its pharmacy team members are newly appointed and as part of their induction have read the pharmacy's written procedures. They discuss the mistakes they make during dispensing to learn from them. And they have been enrolled on dispenser qualification training.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.1

- Overall, the pharmacy appropriately manages the risks with its services. But some ways of working are not in line with the available written procedures. This includes managing medicines which are out of stock at the wholesalers. And with no index to refer to, team members struggle to retrieve some of the written procedures such as how to manage prescriptions assembled at its hub pharmacy.

Standard 1.2

- Pharmacy team members discuss the mistakes they make when dispensing, and learn from them. But they do not record these mistakes to help them identify trends and to improve the safety and quality of the pharmacy's services.
