

Registered pharmacy inspection report

Pharmacy name: Brimington Pharmacy

Address: 54 Church Street, Brimington, CHESTERFIELD, Derbyshire, S43 1JG

Pharmacy reference: 1030281

Type of pharmacy: Community

Date of inspection: 14/07/2026

Pharmacy context and inspection background

This busy community pharmacy is located in the centre of the village. Most people who use the pharmacy are from the local area and a home delivery service is available. The pharmacy dispenses NHS prescriptions, and it sells a range of over-the-counter medicines.

This was an intelligence-led inspection of the pharmacy following information received by the GPhC. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in July 2017.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 1.1

- Members of the pharmacy team do not have a clear understanding of the pharmacy's procedure for operating in the absence of the responsible pharmacist. They are not clear what activities must not take place when the responsible pharmacist is absent, and pharmacy services are sometimes provided in a way that may put patient safety at risk.

Standard 1.3

- Pharmacy team members do not always work within the limitations of their roles. For example, pharmacy team members sometimes sell Pharmacy (P) medicines and hand out prescriptions when the responsible pharmacist is absent without having the proper authority or a clearly defined framework permitting this.

Standard 1.6

- The pharmacy's responsible pharmacy (RP) record is inaccurate, and the pharmacy is not able to provide a reliable record of the times there has been an RP on the premises. Private prescriptions for controlled drugs (CDs) are not submitted to the relevant authority in a timely manner to ensure compliance with requirements.

Standards that were met with areas for improvement

Standard 2.2

- Although pharmacy staff and trainee pharmacists receive role-specific training in line with GPhC minimum training requirements, the level of supervision and support is limited.

Standard 4.3

- The pharmacy generally stores medicines appropriately but it could do more to prevent unauthorised access to some higher risk medicines.
