Areas of good practice

Standard 2.2

- The pharmacy provides team members with protected time to undertake relevant and

meaningful learning, including scenario-based training activities. This supports the ongoing development of their knowledge and skills, helping them to deliver pharmacy services safely, effectively and in line with patients' needs.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy records the time at which the Responsible Pharmacist (RP) assumes responsibility for the pharmacy each day. However, it does not routinely record the time the RP ceases to be in charge. As a result, the RP record is incomplete and does not provide an accurate account of who was responsible for the pharmacy at all times. This means the pharmacy is not fully complying with the legal requirement to maintain an accurate and contemporaneous record of the Responsible Pharmacist in charge.
