Pharmacy context and inspection background

This community pharmacy is located in a parade of shops on a busy road in Barnet, Hertfordshire. It dispenses NHS and private prescriptions. And it sells medicines over the counter. The pharmacy provides some peoples medications in multi-compartment compliance packs to help them take their medicines safely. And it provides some NHS services such as Pharmacy First, the New Medicines service and the flu vaccination service. The pharmacy offers a delivery service to people who cannot get to the pharmacy.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in January 2015.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.2

- The pharmacy reviews mistakes it makes and puts actions in place to try and prevent similar

mistakes happening again. But it does not always keep records of these mistakes which means it may be harder for the pharmacy to identify trends and make further improvements.

Standard 1.6

- The pharmacy keeps the records it needs to by law. However the pharmacy sometimes makes alterations to controlled drugs records where it is not clear what the alteration is and who made it. This makes it harder for the pharmacy to show why alterations have been made.

Standard 4.4

- The pharmacy receives drug safety alerts and recalls, however it does not keep any records to show that they have been actioned. This makes it harder for the pharmacy to demonstrate it has taken the appropriate action in response to safety alerts and recalls.
