Pharmacy context and inspection background

This is a community pharmacy in a largely residential area of Southeast London. It provides NHS services such as dispensing and the Pharmacy First Service. And it has recently started providing ambulatory blood pressure testing. The pharmacy supplies medicines in multi-compartment compliance packs to some people who need this additional support. And it offers a delivery service to people's homes.

This was a desktop reinspection following an inspection in November 2025 where the pharmacy did not meet Standard 1.6. This reinspection focused on the Standard which had previously not been met. Since the inspection the pharmacy has confirmed it had investigated and resolved the discrepancies between the running balances and the stock held. And the pharmacy has confirmed that it is now undertaking weekly balance checks.
