

# Registered pharmacy inspection report

## Pharmacy name: Bryant Road Pharmacy

**Address:** 59-61 Bryant Road, Strood, ROCHESTER, Kent, ME2 3EP

**Pharmacy reference:** 1032899

**Type of pharmacy:** Community

**Date of inspection:** 24/11/2025

### Pharmacy context and inspection background

This is a community pharmacy on a parade of shops in a largely residential area of Rochester. It provides NHS services such as the New Medicine Service and the Pharmacy First service. And it provides contraception and emergency hormonal contraception services using patient group directions. It also delivers medicines to some people's homes.

This was an inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in November 2016.

**Overall outcome:** Standards met

**Required Action:** None

### Standards that were met with areas for improvement

#### Standard 1.1

- Although the pharmacy had standard operating procedures (SOPs), these were not always easily available to team members to refer to. So, staff may not know the correct procedures to follow. Shortly after the inspection, the pharmacy provided evidence that the SOPs are now available at

the pharmacy.

### **Standard 1.2**

- The pharmacy team members are made aware of mistakes they make during the dispensing process and are given the opportunity to learn from them. But team members don't always record these mistakes. So, it may make it harder for them to identify patterns and take effective action to minimise the chance of similar mistakes.

### **Standard 1.6**

- Overall, the pharmacy keeps the records it needs to. But some records are not completed within the required timeframe. And some do not have all the relevant information recorded.
