Pharmacy context and inspection background

This is a community pharmacy on a parade of shops in a largely residential area of Rochester. It provides NHS services such as the New Medicine Service, the Pharmacy First service and the Hypertension Case Finding Service. And it supplies medicines in multi-compartment compliance packs to people who need this support. It provides a face-to-face private prescribing service for various conditions such as infected bites, acute bronchitis, acute sinusitis, rosacea, impetigo and acute urinary tract infections. Currently, the pharmacy only issues a small number of prescriptions each month. And it delivers medicines to some people's homes.

This was a desktop re-inspection of the pharmacy following an inspection in December 2025 where the pharmacy was found to be not meeting Standard 4.3 but was meeting the other Standards. The re-inspection focused on the Standard which had previously not been met. Since the last inspection, the pharmacy has replaced the affected fridge and records showed that these medicines were now being stored at appropriate temperatures.

Overall outcome: Standards met
