Pharmacy reference: 1033140

Type of pharmacy: Community

Date of inspection: 11/11/2025

Pharmacy context and inspection background

This is a traditional community pharmacy located in Bolton. NHS dispensing is the main activity, and it also provides several other NHS services including Pharmacy First, flu vaccinations, Covid-19 booster vaccinations and sells a range of over-the-counter medicines. The pharmacy also provides a range of private services including travel vaccinations and weight loss treatments.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in January 2016.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.2

- Members of the pharmacy team discuss mistakes when they are identified during the dispensing process, such as a near misses, to help learn from them. But they do not record details of the mistake or the actions they take. So they are unable to complete a review to help identify

learning points from underlying themes, or demonstrate how they are improving the quality of the services they provide

Standard 1.6

- The pharmacy generally completes the records that it needs to by law but some of the private prescription records are incomplete or inaccurate, which could make audit more difficult.

Standard 2.2

- Team members generally do the right training for their roles. But not all team members are enrolled on a course relevant to their role in a timely way. So this could mean that they do not always have the skills and knowledge they need to do their role safely.
