Pharmacy context and inspection background

This pharmacy is situated next to a health centre on a main road in a residential area. Its main activity is dispensing NHS prescriptions for people living locally. This was a reinspection following an inspection in August 2025 where the pharmacy did not meet Standards 1.6 and 2.2. This reinspection focused on those Standards which had previously not been met. The pharmacy has improved its controlled drug (CD) register record keeping and monitoring of its CD stock. In addition, all pharmacy team members have completed the appropriate qualifications for their roles.

Overall outcome: Standards met

Required Action: Not Required

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy documents the obsolete CDs that it denatures. However, the witness to these disposals does not always record their details in these records. So, the pharmacy may not be able to easily verify that it has securely disposed of these CDs.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**
