Pharmacy context and inspection background

This community pharmacy is located on a main road in a residential area serving the local population. Its main activity is dispensing NHS prescriptions. It also provides a large number of people with medicines in multi-compartment compliance packs, including those living in assisted living and care home establishments. The pharmacy provides other NHS services which includes substance misuse treatment, and it has a home delivery service.

This was a full reinspection following an inspection in October 2024 where the pharmacy did not meet Standards 1.1, 2.2 and 4.3. Whilst the pharmacy has made some improvements to its written procedures, staff training and stock medicines management systems, it still needs to improve its management of controlled drugs and confidential waste.

Standard 1.7

- The pharmacy does not effectively separate confidential waste from general waste for proper disposal. This means there is a risk of breaching confidential information.
