Type of pharmacy: Community

Date of inspection: 18/06/2025

Pharmacy context and inspection background

This community pharmacy is located just outside the village centre. Its main activity is dispensing NHS prescriptions, some of which it delivers to people's homes. It also sells medicines over the counter and offers the NHS Pharmacy First service, Hypertension case-finding service, and contraceptive service. It provides seasonal flu and Covid 19 vaccinations and supplies medicines in multi-compartment compliance packs to some people who need this support to help them take their medicines at the right time. It also supplies medicines to some people receiving substance misuse treatment.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in June 2015.

Standards not met

Standard 4.3

- The pharmacy had some records of fridge temperatures. But it did not consistently monitor or record the temperature of two of its three fridges including the fridge containing higher-risk medicines such as injectable weight loss medicines and vaccinations. So, there may be a risk these medicines are not safe to supply.

Standards that were met with areas for improvement

Standard 1.2

- The pharmacist discusses when there is a near miss incident with members of the team to help identify learning. And the team record their mistakes in a near miss log. But a member of the team doesn't routinely review the logs for trends and patterns which might mean opportunities to improve ways of working are missed.
