

Registered pharmacy inspection report

Pharmacy name: Allisons Chemist

Address: 43 Moss Way, Croxteth, LIVERPOOL, Merseyside, L11 0BL

Pharmacy reference: 1034537

Type of pharmacy: Community

Date of inspection: 17/11/2025

Pharmacy context and inspection background

This community pharmacy is situated on a parade of shops in Croxteth, Liverpool. The pharmacy dispenses NHS prescriptions, private prescriptions and sells over-the-counter medicines. It also provides a range of services including substance misuse supplies, seasonal flu vaccinations, and the NHS Pharmacy First service. The pharmacy supplies some people with medicines in multi-compartment compliance packs to help them take their medicines at the right time.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in October 2016.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 1.1

- The pharmacy provides some services under an informal arrangement with local services or independent prescribers. For example, it delivers higher risk medicines to a local accommodation for vulnerable people. The pharmacy also dispenses weight loss medicines against prescriptions

written by a nurse prescriber, but the pharmacy does not know if the prescriber operates under a CQC registered service. And the pharmacy has not undertaken any further due diligence checks or completed a risk assessment. So it cannot demonstrate all of the risks have been identified, and suitably managed.

Standard 1.6

- The pharmacy has some records, but they are incomplete. The records for the responsible pharmacist are made across two different electronic systems, and the pharmacy had not identified some missing entries. This means the pharmacy may not be able to accurately show when a pharmacist was present. And its private prescription register does not always contain the details of who prescribed the medicines, so it may not be able to respond effectively to a query or concern.

Standard 4.3

- The pharmacy stores its refrigerated medicines in three different fridges. But one of the fridges does not contain a thermometer, so the pharmacy cannot demonstrate the medicines are stored at the correct temperature to help make sure they remain safe to use.
- The pharmacy correctly disposes of unwanted medicines in DOOP bins, which are collected by a licensed waster carrier. But the bins are not stored securely away from unauthorised access.

Standard 5.2

- The pharmacy had access to some glass conical measures, which were stamped to show they were of a sufficient calibration grade. But they did not have a measure for 10ml or less, and they used oral liquid syringes which do not provide a sufficient grade for medicines which require reconstitution or are considered higher risk.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: Standards not all met

Table 1: Inspection outcomes for standards under principle 1

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
1.1 - The risks associated with providing pharmacy services are identified and managed	Not met	
1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored	Met	
1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability	Met	
1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate	Met	
1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided	Met	
1.6 - All necessary records for the safe provision of pharmacy services are kept and maintained	Not met	
1.7 - Information is managed to protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
1.8 - Children and vulnerable adults are safeguarded	Met	

Principle 2: Staff are empowered and competent to safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 2: Inspection outcomes for standards under principle 2

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
2.1 - There are enough staff, suitably qualified and skilled, for the safe and effective provision of the pharmacy services provided	Met	
2.2 - Staff have the appropriate skills, qualifications and competence for their role and the tasks they carry out, or are working under the supervision of another person while they are in training	Met	
2.3 - Staff can comply with their own professional and legal obligations and are empowered to exercise their professional judgement in the best interests of patients and the public	Met	
2.4 - There is a culture of openness, honesty and learning	Met	
2.5 - Staff are empowered to provide feedback and raise concerns about meeting these standards and other aspects of pharmacy services	Met	
2.6 - Incentives or targets do not compromise the health, safety or wellbeing of patients and the public, or the professional judgement of staff	Met	

Principle 3: The environment and condition of the premises from which pharmacy services are provided, and any associated premises, safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 3: Inspection outcomes for standards under principle 3

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
3.1 - Premises are safe, clean, properly maintained and suitable for the pharmacy services provided	Met	
3.2 - Premises protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
3.3 - Premises are maintained to a level of hygiene appropriate to the pharmacy services provided	Met	
3.4 - Premises are secure and safeguarded from unauthorized access	Met	
3.5 - Pharmacy services are provided in an environment that is appropriate for the provision of healthcare	Met	

Principle 4: The way in which pharmacy services, including management of medicines and medical devices, are delivered safeguards the health, safety and wellbeing of patients and the public

Summary outcome: Standards not all met

Table 4: Inspection outcomes for standards under principle 4

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
4.1 - The pharmacy services provided are accessible to patients and the public	Met	
4.2 - Pharmacy services are managed and delivered safely and effectively	Met	
4.3 - Medicines and medical devices are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; supplied to the patient safely; and disposed of safely and securely	Not met	
4.4 - Concerns are raised when medicines or medical devices are not fit for purpose	Met	

Principle 5: The equipment and facilities used in the provision of pharmacy services safeguard the health, safety and wellbeing of patients and the public

Summary outcome: Standards not all met

Table 5: Inspection outcomes for standards under principle 5

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
5.1 - Equipment and facilities needed to provide pharmacy services are readily available	Met	
5.2 - Equipment and facilities are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; and appropriately maintained	Not met	
5.3 - Equipment and facilities are used in a way that protects the privacy and dignity of the patients and the public who receive pharmacy services	Met	

What do the summary outcomes for each principle mean?

Finding	Meaning
✓ Excellent practice	The pharmacy demonstrates innovation in the way it delivers pharmacy services which benefit the health needs of the local community, as well as performing well against the standards.
✓ Good practice	The pharmacy performs well against most of the standards and can demonstrate positive outcomes for patients from the way it delivers pharmacy services.
✓ Standards met	The pharmacy meets all the standards.
Standards not all met	The pharmacy has not met one or more standards.
