### Standards that were met with areas for improvement

#### Standard 1.2

- The pharmacy has systems to record their mistakes. But the process does not identify specific learning points for members of the team, which would help to reduce the risk of similar mistakes happening again.

#### Standard 1.6

- The pharmacy keeps the required records. But some record, such as fridge temperatures, are kept off-site. So the team may not be able to easily refer to these records in the event of a query or a concern.

## **Standard 2.2**

- Members of the pharmacy team have completed, or are enrolled onto, the appropriate training courses for their roles. But the pharmacy does not routinely provide training packages to members of the team to help them to keep up to date and develop new skills.
