Pharmacy context and inspection background

This pharmacy is situated in a small row of shops, in a residential area of Bebington, Wirral. It dispenses NHS prescriptions, private prescriptions and sells over-the-counter medicines. It also provides a range of services including seasonal flu, the NHS Pharmacy First service and private services such as weight loss and flu vaccinations. The pharmacy supplies medicines in multi-compartment compliance packs to some people to help them take their medicines at the right time.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in October 2015.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy's private prescription records are generally complete in line with requirements; however, emergency medicine supplies are not routinely entered in the private prescription

register so the pharmacy may not be able to appropriately respond to queries or concerns regarding the service.

Standard 4.3

- The pharmacy largely stores medicines correctly; however, it does not always store assembled medicines awaiting collection securely from unauthorised access.
- The pharmacy dispenses medicines into multi-compartment compliance packs for patients who need additional support. The service is generally provided in a safe and effective manner, but some team members leave the packs unsealed before the final accuracy check which increases the risk of them being disturbed which could lead to errors.
