**Pharmacy reference:** 1034872

**Type of pharmacy:** Community

**Date of inspection:** 30/04/2025

### Pharmacy context and inspection background

This pharmacy is located in a medical centre. It dispenses NHS and private prescriptions. And it sells medicines over the counter. The pharmacy offers some NHS services such as Pharmacy First. And it offers some private services, such as weight loss and travel vaccinations via patient group directions (PGDs). The pharmacy supplies medicines to some people in multi-compartment compliance packs. And it offers a prescription delivery service.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in September 2015.

**Overall outcome:** Standards not all met

**Required Action:** Improvement Action Plan

### Standards not met

#### Standard 1.1

- The pharmacy's standard operating procedures (SOPs) have not been reviewed in over nine years. And it cannot show that all its team members have read the SOPs. This increases the risk that team members are not working in the most safe and efficient way or in line with best

practice or current legislation.

### **Standard 4.3**

- The pharmacy does not keep complete records of fridge temperatures and therefore cannot show that medicines requiring cold storage are always stored at the right temperature.

## **Standards that were met with areas for improvement**

### **Standard 1.2**

- The pharmacy takes action when it identifies a near miss (a mistake spotted and corrected during the dispensing process) to try and prevent similar mistakes happening again. However, it does not record these mistakes which could make it harder for the pharmacy to identify trends to make further improvements.
