Standards that were met with areas for improvement

Standard 1.6

- The pharmacy does not always ensure that all of its records are complete, accurate and up to date. This means that the responsible pharmacist may not have all the information necessary to ensure that services are always delivered safely and effectively.

Standard 4.3

- The pharmacy does not always store all its medicines so that individual batches can be identified separately. This means that there is an increased risk that a medicine may be supplied when it shouldn't be.
