Type of pharmacy: Community

Date of inspection: 17/06/2026

Pharmacy context and inspection background

This is a independent community pharmacy on a main road in the Wembley area of Brent, Middlesex. The pharmacy dispenses NHS and private prescriptions. And its team members sell over-the-counter medicines and provide advice. The pharmacy offers services including a blood pressure service, Pharmacy First and the New Medicine Service (NMS). The pharmacy also provides a private weight loss service and a travel vaccination service, as well as private phlebotomy services, ear microsuction services and erectile dysfunction services.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in September 2016.

Overall outcome: Standards not all met

Standards not met

Standard 4.3

- The pharmacy has a fridge that contains medication but the fridge does not have a working thermometer. This means the pharmacy cannot confirm that medication is stored at the required

temperatures and is suitable for people to take. The pharmacy also has some stock medicines that are not appropriately packaged or labelled. This also makes it difficult to show that these medicines remain fit for people to take.

Standard 5.2

- The pharmacy uses measuring equipment that has not been properly calibrated. This could result in incorrect volumes being measured when preparing people's medicine.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy does not always include all the details it should have in some of its records, and does not consistently keep the appropriate records for private prescriptions, fridge temperature records and the reasons for emergency supplies. This means the pharmacy is not meeting all the requirements for record keeping and there is not a sufficient audit trail if required. This all makes it harder for the pharmacy to resolve any queries that may arise in the future.
