Pharmacy context and inspection background

This community pharmacy is located within a Waitrose supermarket in Norwich in Norfolk. It provides a variety of services including dispensing of NHS and private prescriptions, the New Medicines Service (NMS) and the Pharmacy First service under Patient Group Directions (PGDs). It also provides medicines in multicompartiment compliance packs for people who need extra support taking their medicines.

This was an inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was previously inspected in July 2017.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 3.1

- The pharmacy has just enough workspace to dispense safely. But the dispensary floor area is not always kept tidy. During the inspection, the floor space was a little cluttered which could increase

the risk of injury to team members. The pharmacy gave assurances the floor areas would be tidied up.

Standard 4.3

- The pharmacy generally stores its medicines requiring cold storage appropriately. Fridge temperatures checked during the inspection were within the required range and the pharmacy records the temperatures daily. But there have been a few occasions in the past where the recorded temperatures have gone slightly out of range, and it is not clear what action the pharmacy took in response. However, subsequent temperatures were within the required range, including temperatures seen during the inspection. The pharmacy has provided assurances that going forward, any temperature readings found to be outside the required range will be actioned immediately.
