

# Registered pharmacy inspection report

## Pharmacy name: Thursfields Pharmacy

**Address:** 63-65 Gold Street, KETTERING, Northamptonshire, NN16 8JB

**Pharmacy reference:** 1035417

**Type of pharmacy:** Community

**Date of inspection:** 13/08/2025

### Pharmacy context and inspection background

This community pharmacy is located in the centre of Kettering. Its main activity is dispensing NHS prescriptions, some of which it delivers to people's homes. It also sells medicines over the counter and offers the NHS Pharmacy First service and Hypertension case-finding service. It provides seasonal flu vaccinations and Covid-19 vaccinations and supplies medicines in multi-compartment compliance packs to people who need this support to help them take their medicines at the right time. It also supplies medicines to some people receiving substance misuse treatment.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in July 2015.

**Overall outcome:** Standards met

**Required Action:** None

### Areas of good practice

#### Standard 1.2

- Members of the pharmacy team record and review their mistakes and can demonstrate that they

use these events to improve the safety and quality of the services they provide.

### **Standard 1.8**

- There is a clear culture of safeguarding the safety and wellbeing of children and vulnerable adults. The pharmacy team are able to provide examples of safeguarding interventions that they have made and how they have resulted in positive outcomes for those individuals.

## **Standards that were met with areas for improvement**

### **Standard 4.2**

- The pharmacy team were kind and helpful to people visiting the pharmacy. The pharmacist was easily accessible to patients and during the inspection went out to speak to patients who needed advice several times. The pharmacist gives advice to people taking medicines for the first time including those medicines that require ongoing monitoring and management. But he does not routinely give advice to people who have taken these medicines before, so the pharmacy may miss opportunities to provide additional information when people collect their medicines.
- The pharmacy generally prepares multi-compartment compliance packs safely, but it does not always include patient information leaflets. So, people may not always have all the information they need to take their medicines safely.

## Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 1: Inspection outcomes for standards under principle 1

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
1.1 - The risks associated with providing pharmacy services are identified and managed	Met	
1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored	Met	<b>Good practice</b>
1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability	Met	
1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate	Standard not inspected	
1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided	Met
