Pharmacy context and inspection background

This community pharmacy is located alongside other local retail units on a housing estate in Mansfield, Nottinghamshire. Its main services include dispensing NHS prescriptions and selling over-the-counter medicines. And it provides NHS consultation services including the Pharmacy First Service, Pharmacy Contraception Service, blood pressure checks and New Medicine Service (NMS). The pharmacy also offers the seasonal flu vaccination service and a private weight loss consultation service.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in June 2016.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 4.2

- The pharmacy team apply a range of checks when supplying medicines in multi-compartment compliance packs to people. But pharmacists do not always record the checks they make to ensure the medicines prescribed are safe and appropriate for the patient to take when supplying medicines in this way. This means it may be more difficult for the pharmacy to show that the checks have been completed should a query arise.
