Pharmacy context and inspection background

The pharmacy is in the Nottinghamshire village of Brinsley. Its main services include dispensing NHS prescriptions and selling over-the-counter medicines. The pharmacy provides a range of NHS consultation services including the NHS blood pressure check service, NHS Pharmacy First Service and seasonal vaccinations. It provides an NHS consultation and prescribing service through the new NHS Independent prescribing (IP) Pathfinder Programme for people with minor ailments. And it provides a range of private consultation services including an ear care service, weight loss service and travel health vaccinations. The pharmacy supplies some medicines in multi-compartment compliance packs, designed to help people remember to take their medicines. It offers people the option to collect their medicines through an automated collection point located to the side of the premises. And it delivers medicines to people's homes and to people living in care homes.

This was a reinspection following an inspection in July 2024, where the pharmacy did not meet Standards 1.3, 1.6 and 4.3. This reinspection focused mainly on those Standards which had previously not been met. The pharmacy has improved against all these standards. Since the last inspection, its team members have refreshed their learning of the pharmacy's written procedures. And they know what tasks they can and cannot perform without the responsible pharmacist present and signed in. The pharmacy is keeping its records in accordance with legal and regulatory requirements. It is storing medicines safely and securely. And it is using monitoring tools to support it in ensuring medicines requiring cold storage are kept at the right temperature.
