Pharmacy context and inspection background

This busy community pharmacy is located in the centre of the village. Most people who use the pharmacy are from the local area and a home delivery service is available. The pharmacy dispenses NHS prescriptions, and it sells a range of over-the-counter medicines. It provides seasonal flu and COVID-19 vaccination services and some other NHS funded services including the Pharmacy First Service. The pharmacy supplies a large number of medicines in multi-compartment compliance aid packs to help people take their medicines at the right time. It also provides some private services such as a weight loss clinic.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in November 2016.

Overall outcome: Standards met

Required Action: None

Areas of good practice

Standard 1.2

- The pharmacy completes regular checks and audits to make sure it is operating safely and it analyses adverse dispensing incidents. Learning which is identified is shared internally as well as with other pharmacies in the company.

Standard 2.2

- Pharmacy team members have the appropriate skills, qualifications and competence for their roles. The pharmacy proactively supports them to address their ongoing learning and development needs which leads to a more positive patient experience.

Standard 2.4

- Pharmacy team members are enthusiastic and knowledgeable and work well together in a very busy environment. They communicate effectively, and openness, honesty and learning are encouraged.

Standards that were met with areas for improvement

Standard 4.3

- The pharmacy sources and supplies medicines safely. But the lack of space in the pharmacy mean medicines are not always stored in an orderly manner. Some of the dispensary shelves are untidy and some medicines are not stored in their original packaging or in containers with appropriate labelling. So, it might not always be clear if it is suitable to supply.
