Pharmacy context and inspection background

This busy community pharmacy is next to a health centre close to the town centre in Sutton-In-Ashfield, Nottinghamshire. Its main services include dispensing NHS prescriptions, selling over-the-counter medicines and providing advice to people. The pharmacy provides a range of NHS consultation services including Pharmacy First, blood pressure checks, contraception services and the New Medicine Service (NMS). It also provides private consultation services including a weight management service and private seasonal vaccinations.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in June 2016.

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 1.2

- Pharmacy team members are fully committed to learning from both mistakes made during the dispensing process and wider patient safety events. They continuously share learning to support them in acting to reduce risk. And they keep the actions they take under review to ensure they remain effective.

Standard 2.2

- Pharmacy team members are encouraged to develop their knowledge and skills through regular learning opportunities. Some provide mentorship support to other team members and provide consultation services for people visiting the pharmacy. Training includes both core learning and topics of interest to team members. And team members demonstrate how they apply the knowledge they gain through this regular learning by demonstrating person centred care when providing the pharmacy's services.
