Pharmacy context and inspection background

This pharmacy is located in the centre of the ex-mining village of Lynemouth, Northumberland. Its main services are dispensing NHS prescriptions and providing additional NHS services such as Pharmacy First, blood pressure checks and vaccinations. Team members provide advice on medicines and provide some additional private services, such as for travel and weight loss.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in May 2015.

Overall outcome: Standards met

Required Action: None

Areas of good practice

Standard 1.2

- The pharmacy carries out regular reviews on mistakes team members make during the dispensing process. Team members are proactive in suggesting and making changes to improve the

pharmacy's processes and improve patient safety. And the pharmacy continually monitors the changes it makes to ensure they remain effective.

Standard 1.6

- The pharmacy uses its electronic platforms well to make clear records of the conversation team members have with people using the pharmacy's services. Records it makes for people using the pharmacy's private prescribing services are comprehensive and provide an audit trail of the decision-making process including who was responsible for each part. And the pharmacy makes good interventions to ensure people receive medicines which are suitable for them to take.

Standard 2.2

- The pharmacy supports and encourages its team members to develop in their roles and undertake additional training. This allows them to deliver extended services and fully utilise the skills of the wider pharmacy team.
