### Pharmacy context and inspection background

This is a community pharmacy on a small parade of shops in the Seven Dials area of Brighton. It provides NHS services such as dispensing, and it sells over-the-counter medicines. It supplies medicines in multi-compartment compliance packs for people who need this additional support. And it offers a supervised administration service for certain medicines. The pharmacy was taken over by new owners in July 2025. The inspection was undertaken over two days, 26 September and 2 October 2025.

This was an intelligence-led inspection of the pharmacy following information received by the GPhC. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in July 2018 when it was under the previous ownership.

### Standards that were met with areas for improvement

#### Standard 1.6

- The pharmacy generally keeps the records it needs to by law. But it does not always make sufficiently clear records when it alters the running balances of certain medicines. So, this could

make the records less reliable if there are any queries. The pharmacist has provided assurances that the running balances will now be checked weekly so that any discrepancies can be identified quickly.
