Pharmacy context and inspection background

This is a community pharmacy in a residential area of Brighton. It mainly provides NHS services such as dispensing and sells medicines over the counter. It provides seasonal flu vaccinations and the Pharmacy First service. It supplies medicines in multi-compartment compliance packs to a large number of people who need this additional support. And it offers a delivery service.

This was an intelligence-led inspection of the pharmacy over 14 and 19 February 2025 following information received by the GPhC. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in March 2016.

Standards not met

Standard 1.2

- The pharmacy does not routinely record any dispensing mistakes, including ones which are found before the medicine has been handed to a person. There is some evidence that dispensing errors have occurred and the pharmacy is unable to demonstrate that records had been made about

them. This makes it harder for the pharmacy to show what it has done in response to dispensing mistakes. And not recording them means it is harder for the pharmacy to identify any patterns or trends.
