Pharmacy context and inspection background

This pharmacy is set in the centre of Smallfield village. The pharmacy opens six days a week. It dispenses people's prescriptions, sells over-the-counter medicines and offers health advice. And it provides a range of other NHS services.

This was a full inspection of the pharmacy. The pharmacy was last inspected in April 2016.

Overall outcome: Standards not all met

Standards not met

Standard 4.3

- The pharmacy doesn't store all its medicines that must be locked away properly as required by law. And it cannot show that all its medicines it needs to keep in a refrigerator have been stored at the right temperature.

Standards that were met with areas for improvement

Standard 3.1

- The pharmacy is dated and would benefit from a refit. It's generally maintained to an acceptable standard. But its dispensary could be made bigger and its layout improved to give its team more space to work in. And there are some outstanding maintenance issues with its sinks and its flooring that haven't been acted upon in a timely manner despite these being raised previously. So, these things could impact on the overall professional image of the pharmacy.

Standard 4.2

- The pharmacy team doesn't usually supply packaging leaflets for all the medicines contained in the multi-compartment compliance packs it dispenses. This means that people may not always have all the information they need to take their medicines safely.

Standard 4.4

- The pharmacy acts upon the drug alerts it receives, but it doesn't keep a clear record of what it has done, and when. This makes it harder for the pharmacy to show what action it had taken if a query about one of the affected medicines should arise in the future.
