Pharmacy context and inspection background

This busy community pharmacy is located in a retail parade, in the centre of a village, on the outskirts of Newcastle-under-Lyme. Most people who use the pharmacy are from the local area and a home delivery service is available. The pharmacy dispenses NHS prescriptions, and it sells a range of over-the-counter medicines. It provides seasonal flu and covid-19 vaccination services, and some other NHS funded services including the Pharmacy First Service. It also provides a number of private services including travel vaccinations, health checks and a weight management service. Some prescriptions are assembled at a hub pharmacy owned by the same company.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in November 2015.

Overall outcome: Standards met

Required Action: Not Required
