Pharmacy context and inspection background

This independent community pharmacy is located in a residential area of Tamworth. Its main activity is the dispensing of medicines against NHS prescriptions. It provides NHS commissioned services such as Pharmacy First, New Medicine service and a blood pressure checking service. It also provides some private services including a pharmacist led prescribing service with face-to-face consultations, and ear wax removal. Some medicines are supplied to people in multi-compartment compliance packs to help them take their medicines correctly. And a medicine delivery service is available.

This was a reinspection following an inspection in August 2024 where the pharmacy did not meet Standards 1.1 and 1.6 in relation to its prescribing service. This reinspection focused on those Standards which had previously not been met. Since the last inspection, the pharmacy has reviewed the pharmacist led prescribing service. It has produced written risk assessments and prescribing policies for the service, and it has carried out a prescribing audit. In addition, the format in which the prescribing records are kept has been updated and improved.
