Pharmacy context and inspection background

This pharmacy is situated in a satellite GP surgery in the village of Luddendenfoot. The pharmacy dispenses NHS prescriptions, and it sells some over-the-counter medicines. It supplies prescription medicines in multi-compartment compliance packs to help people take their medicines at the right time. It also provides the Covid vaccination booster service and the NHS Pharmacy First service.

This was an inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in July 2018 and all standards were met.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy generally completes the records that it needs to by law but some of the responsible pharmacist (RP) records are incomplete, which could make it difficult to show who was responsible for the safe running of the pharmacy at all times.

Standard 4.3

- Overall, the pharmacy manages its medicines appropriately. But a few medicines are stored outside of their original packs with no records of batch numbers or expiry dates. This could make it harder for the pharmacy to respond to safety alerts or to date-check medicines properly.
