

Registered pharmacy inspection report

Pharmacy name: Guardian Chemist

Address: 448 Kingsland Road, Dalston, LONDON, E8 4AE

Pharmacy reference: 1040090

Type of pharmacy: Community

Date of inspection: 24/04/2026

Pharmacy context and inspection background

This is a community pharmacy located within a parade of shops in Dalston. In addition to dispensing prescriptions, it provides a range of NHS services including the Pharmacy First service, the Hypertension Case-Finding Service, the contraception service, minor ailments, Healthy Start and supervised consumption. It supplies medicines in multi-compartment compliance packs to a number of people to help them take their medicines safely and delivers medicines to some people.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in February 2016.

Overall outcome: Standards met

Required Action: Not Required

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy largely keeps the records it needs to by law. But it does not always record the correct prescribers' details for private prescriptions it dispenses. Its responsible pharmacist

record does not always have the time the responsible pharmacist signed out. And it does not always appropriately label the medicines it supplies as an emergency. So, this could make the records less reliable and the specific details harder to find if there was a query.

Standard 1.8

- Pharmacy team members have some awareness about how to safeguard vulnerable people, but not all team members have undertaken safeguarding training. So, they may not be aware of signs to look out for or how to refer any concerns.

Standard 2.2

- Although team members complete the required training for their role, they are not always enrolled onto a course in a timely manner.

Standard 4.2

- Members of the pharmacy team do not always know when higher-risk medicines are being handed out. So, they might not always be able to check that medicines are still suitable or give people advice about taking them.
- Although the pharmacy team are aware of the requirements when dispensing valproate, the pharmacy does not always document individual risk assessments when supplying the medicine outside of its original pack. And the pharmacy does not always supply patient information leaflets when providing medicines in multi-compartment compliance packs. So, people may not always have important information they need to take their medicines safely.

Standard 4.4

- The pharmacy receives and deals with drug alerts and recalls appropriately. But it does not always record the action it has taken, which could make it harder for the pharmacy to demonstrate what it has done.

Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 1: Inspection outcomes for standards under principle 1

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
1.1 - The risks associated with providing pharmacy services are identified and managed	Met	
1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored	Met	
1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability	Met	
1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate	Standard not inspected	
1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided	Met	
1.6 - All necessary records for the safe provision of pharmacy services are kept and maintained	Met	Area For Improvement
1.7 - Information is managed to protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
1.8 - Children and vulnerable adults are safeguarded	Met	Area For Improvement

Principle 2: Staff are empowered and competent to safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 2: Inspection outcomes for standards under principle 2

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
2.1 - There are enough staff, suitably qualified and skilled, for the safe and effective provision of the pharmacy services provided	Met	
2.2 - Staff have the appropriate skills, qualifications and competence for their role and the tasks they carry out, or are working under the supervision of another person while they are in training	Met	Area For Improvement
2.3 - Staff can comply with their own professional and legal obligations and are empowered to exercise their professional judgement in the best interests of patients and the public	Met	
2.4 - There is a culture of openness, honesty and learning	Standard not inspected	
2.5 - Staff are empowered to provide feedback and raise concerns about meeting these standards and other aspects of pharmacy services	Standard not inspected	
2.6 - Incentives or targets do not compromise the health, safety or wellbeing of patients and the public, or the professional judgement of staff	Standard not inspected	

Principle 3: The environment and condition of the premises from which pharmacy services are provided, and any associated premises, safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 3: Inspection outcomes for standards under principle 3

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
3.1 - Premises are safe, clean, properly maintained and suitable for the pharmacy services provided	Met	
3.2 - Premises protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services	Met	
3.3 - Premises are maintained to a level of hygiene appropriate to the pharmacy services provided	Standard not inspected	
3.4 - Premises are secure and safeguarded from unauthorized access	Met	
3.5 - Pharmacy services are provided in an environment that is appropriate for the provision of healthcare	Standard not inspected	

Principle 4: The way in which pharmacy services, including management of medicines and medical devices, are delivered safeguards the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 4: Inspection outcomes for standards under principle 4

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
4.1 - The pharmacy services provided are accessible to patients and the public	Met	
4.2 - Pharmacy services are managed and delivered safely and effectively	Met	Area For Improvement
4.3 - Medicines and medical devices are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; supplied to the patient safely; and disposed of safely and securely	Met	
4.4 - Concerns are raised when medicines or medical devices are not fit for purpose	Met	Area For Improvement

Principle 5: The equipment and facilities used in the provision of pharmacy services safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 5: Inspection outcomes for standards under principle 5

Standard	Outcome of individual standard	Area for improvement/ Area of good or excellent practice
5.1 - Equipment and facilities needed to provide pharmacy services are readily available	Met	
5.2 - Equipment and facilities are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; and appropriately maintained	Standard not inspected	
5.3 - Equipment and facilities are used in a way that protects the privacy and dignity of the patients and the public who receive pharmacy services	Standard not inspected	

What do the summary outcomes for each principle mean?

Finding	Meaning
✓ Good practice	The pharmacy performs well against most of the standards and can demonstrate positive outcomes for patients from the way it delivers pharmacy services.
✓ Standards met	The pharmacy meets all the standards.
Standards not all met	The pharmacy has not met one or more standards.
