

Registered pharmacy inspection report

Pharmacy name: Atkins Chemist

Address: 124 Holloway Road, LONDON, N7 8JE

Pharmacy reference: 1040358

Type of pharmacy: Community

Date of inspection: 13/02/2025

Pharmacy context and inspection background

This is a community pharmacy in a parade of shops on a main road. It dispenses NHS prescriptions and supplies medicines in multi-compartment compliance packs to a number of people to help them take their medicines safely and delivers medicines to some patients. It also provides travel vaccinations, the Pharmacy First service, the New Medicines Service, smoking cessation service and the minor ailments service.

This was a full routine inspection of the pharmacy. The pharmacy was last inspected in December 2020 and all standards were met.

Overall outcome: Standards not all met

Standards not met

Standard 4.3

- The pharmacy cannot show that it always keeps medicines requiring refrigeration at the right temperatures so they remain fit for purpose. It does not keep a record of its fridge temperature checks. And it cannot show that it takes prompt action when fridge temperatures are outside of the required range for storing these medicines appropriately.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy generally keeps the records it needs to by law. But it does not always include the prescriber's details for private prescriptions it dispenses.

Standard 3.2

- The pharmacy has a consultation room where people can have a private conversation with a team member. But the pharmacy does not always keep the room tidy and free from unnecessary clutter.

Standard 4.2

- The pharmacy generally prepares and supplies medicines in multi-compartment compliance packs safely. But after dispensing the packs, they are sometimes left unsealed for extended periods of time, so this could increase the chance of mistakes being made.
