

Registered pharmacy inspection report

Pharmacy name: Arkle Pharmacy

Address: 39 Junction Road, LONDON, N19 5QU

Pharmacy reference: 1040500

Type of pharmacy: Community

Date of inspection: 30/01/2025

Pharmacy context and inspection background

The pharmacy is in a row of shops, located near Archway underground station. The pharmacy provides both private and NHS services such as dispensing prescriptions, the New Medicine Service (NMS), Emergency Hormonal Contraception (EHC), COVID and flu vaccinations, the Pharmacy First service under patient group directions (PGDs), and it runs a travel clinic. The pharmacy supplies medicines in multi-compartment compliance packs to people who need this support to manage their medicines at home, and it offers a delivery service.

This was a reinspection of the pharmacy following an inspection in July 2024 where the pharmacy was found to be not meeting standard 1.6 but was meeting the other standards. This reinspection mainly focused on this standard which had previously not been met. Following the last inspection, the pharmacy had improved on their record keeping for controlled drugs and vaccinations.

Overall outcome: Standards not all met

Standards not met

Standard 1.6

- Although the pharmacy had made some improvements since the last inspection with respect to its controlled drug records, it still does not always keep its other records accurate and up to date. It does not make the required records about private prescriptions it dispenses in a timely way. And it does not record all the information it needs to about vaccinations it administers. For example, some of its vaccination forms did not record whether people had given consent, and some were missing a record about any advice given, or what vaccine was administered.
