

# Registered pharmacy inspection report

## Pharmacy name: Arkle Pharmacy

**Address:** 39 Junction Road, LONDON, N19 5QU

**Pharmacy reference:** 1040500

**Type of pharmacy:** Community

**Date of inspection:** 20/02/2026

### Pharmacy context and inspection background

The pharmacy is in a row of shops, located near Archway underground station. The pharmacy provides both private and NHS services such as dispensing prescriptions, the New Medicine Service (NMS), Emergency Hormonal Contraception (EHC), COVID and flu vaccinations, the Pharmacy First service, and it runs a travel clinic under patient group directions (PGDs). The pharmacy supplies medicines in multi-compartment compliance packs to people who need this support to manage their medicines at home, and it offers a delivery service. This was a reinspection of the pharmacy following an inspection in September 2025 where the pharmacy was found to be not meeting standard 1.6. This reinspection mainly focused on this standard which had previously not been met. Following the last inspection, the pharmacy had improved on their record keeping for controlled drugs.

**Overall outcome:** Standards met

**Required Action:** None

### Standards that were met with areas for improvement

#### Standard 1.6

- The pharmacy largely keeps the records it needs to by law. But it does not regularly audit all its medicines which require additional records. So, this could make it harder for the pharmacy to identify any errors or loss of medicines promptly.

### **Standard 1.7**

- The pharmacy generally maintains people's confidential information, but team members sometimes use an NHS Smartcard belonging to another colleague. This could increase the risk of unauthorised access to confidential patient data.

### **Standard 3.1**

- The pharmacy has just enough workspace for the team to carry out dispensing activities. However, the work areas are small relative to the volume of work, and the team could do more to keep the environment clean and free from clutter.

## Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public
