

Registered pharmacy inspection report

Pharmacy name: Pharmacentre

Address: 149 Edgware Road, LONDON, W2 2HU

Pharmacy reference: 1041362

Type of pharmacy: Community

Date of inspection: 05/11/2025

Pharmacy context and inspection background

The pharmacy is situated on a busy main road in Paddington, west London. The area is well-known for its large Middle Eastern community, restaurants, and cafes. The pharmacy dispenses NHS and private prescriptions, and it sell a range of retail merchandise. It provides other services including a substance misuse service and NHS Pharmacy First. The pharmacy works with a third-party online prescribing service to supply both prescription-only and Pharmacy medicines to patients, which are then delivered via courier services.

This was an intelligence-led inspection of the pharmacy following information received by the GPhC. Not all Standards were inspected on this occasion. The pharmacy was last inspected in November 2018.

Overall outcome: Standards not all met

Required Action: Statutory Enforcement

Standards not met

Standard 1.1

- The pharmacy has not identified or managed the risks associated with the third-party online service it has been working with. It has not undertaken sufficient due diligence prior to supplying medicines for the service, and there is evidence of inadequate ongoing risk management.

Standard 4.2

- The pharmacy is unable to demonstrate that the supply of medicines on behalf of the third-party online prescribing service is safe. It cannot provide assurance that the prescribing service is operating safely and responsibly, or that the prescriptions it receives are appropriate to supply to people. This concern is heightened by the nature of some of the medicines involved.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy's private prescription register is not a reliable record. Some prescription supplies are missing, and entries frequently contain inaccuracies, including incomplete or incorrect prescriber details. Additionally, the responsible pharmacist record does not consistently include all required information, particularly the time at which the pharmacist ceased their duties.
