Pharmacy context and inspection background

This is a community pharmacy on the high street in Bonnyrigg, Midlothian. Its main activity is dispensing NHS prescriptions. And it provides medicines in multi-compartment compliance packs to help people take their medicines at the right times. Team members offer advice on minor ailments and medicines use. And the pharmacist provides private services, such as a weight management service.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all Standards were inspected on this occasion. The last inspection of the pharmacy was in February 2016.

Overall outcome: Standards met

Required Action: None

Standards that were met with areas for improvement

Standard 1.2

- Team members discuss mistakes which are identified during the dispensing process. But they do

not consistently record these at the time they are identified. So, team members may miss opportunities to learn from things that go wrong.

Standard 1.6

- The pharmacy records the details of the private prescriptions it supplies but it does not always record complete details such as the full address of the prescriber. The Responsible Pharmacist was able to identify further training was required to support team members in completing the private prescription register accurately, and they provided assurances this would be actioned following the inspection.
