Type of pharmacy: Community

Date of inspection: 21/07/2026

Pharmacy context and inspection background

This is a community pharmacy located within a small parade of shops in a residential area, North West of Edinburgh city centre. Its main activity is dispensing NHS prescriptions. And it supplies medicines in multi-compartment compliance packs to help people take their medicines properly. Team members support a range of services including the NHS Pharmacy First service and a private weight management service. Both pharmacists are prescribers and provide other services including medicines for common clinical conditions under the NHS Pharmacy First Plus service. And a private travel clinic.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in February 2016.

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 2.1

- The pharmacy has a good skill mix of team members and encourages their development to

support its services.

Standard 2.2

- Planned learning and development is actively encouraged. For example, pharmacy technicians are encouraged to develop in their role and are involved in the provision of private services using patient group directions (PGDs). And team members prepare and present education sessions to other team members to support further learning and development.
