Pharmacy context and inspection background

This is a community pharmacy on the main street in the village of West Linton, Peeblesshire. Its main activity is dispensing NHS prescriptions. And it provides medicines in multi-compartment compliance packs to help people take their medicines at the right times. The pharmacist is a prescriber and provides medicines for common clinical conditions under the NHS Pharmacy First Plus service. And the pharmacy provides private influenza vaccinations. Team members provide advice on minor ailments and medicines' use.

This was a routine inspection which focused on the core Standards relating to patient safety. Not all Standards were inspected on this occasion. The last inspection of the pharmacy was in July 2015.

Overall outcome: Standards not all met

Standards not met

Standard 1.1

- Team members were able to demonstrate the processes they follow to ensure services are

managed safely. But there are no documented procedures for them to refer to, should they need to. So, the pharmacy cannot show it adequately assesses and reviews the risks of the services it provides.

Standards that were met with areas for improvement

Standard 1.2

- Team members regularly discuss the mistakes they make when dispensing, and take action to reduce the risk of something similar happening again. But they do not record these mistakes or any actions taken. So, team members may miss opportunities to identify trends and learn from things that go wrong.
