

# Registered pharmacy inspection report

## Pharmacy name: Lansbury Chemist

Address: 42 Maxton Court, Lansbury Park, CAERPHILLY, Mid Glamorgan, CF83 1QN

Pharmacy reference: 1043538

Type of pharmacy: Community

Date of inspection: 30/06/2026

### Pharmacy context and inspection background

This pharmacy is situated on a housing estate in a residential suburb of Caerphilly. It sells a range of over-the-counter medicines and dispenses NHS and private prescriptions. The pharmacy offers a range of services including provision of emergency hormonal contraception and treatment for minor ailments.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in May 2019.

**Overall outcome:** Standards not all met

**Required Action:** Improvement Action Plan

Follow this link to [find out what the inspections possible outcomes mean](#)

### Standards not met

#### Standard 1.6

- Records for higher-risk medicines are not always accurate which has led to discrepancies. This means the pharmacy cannot consistently demonstrate that they are being managed safely and effectively.

## Areas of good practice

### Standard 1.8

- Pharmacy team members take appropriate action when a safeguarding concern is identified to help protect the wellbeing of vulnerable people.

## Standards that were met with areas for improvement

### Standard 1.1

- The pharmacy has a set of standard operating procedures for the services that it provides. But these are overdue for review, so there is a risk they might not reflect the current activities taking place in the pharmacy.

### Standard 1.2

- Pharmacy team members discuss mistakes identified during the dispensing process but do not routinely record all of them. So they may miss opportunities to identify patterns, learn from their mistakes and improve their services.

### Standard 4.2

- The pharmacy's dispensing processes are largely safe and effective but higher-risk medicines awaiting collection are not always identified. And members of the pharmacy team do not always know when they are being handed out. So they might not always be able to check that these medicines are still suitable, or give people advice about taking them.
- Dispensing labels are not always marked to show who has been involved in the dispensing process. This might make it harder for the team to investigate any dispensing incidents.
- The pharmacy supplies some people with medicines in multi-compartment compliance packs to help them take their medicines correctly. However, descriptions of the medicines dispensed into compliance packs do not always have enough detail to allow individual medicines to be identified. So people may not have enough up-to-date information to make informed decisions about their own treatment.

### Standard 4.3

- The pharmacy largely stores its stock medicines appropriately. However, the usual thermometer used to monitor fridge temperatures was not available at the time of inspection. This means the pharmacy team may not be assured that fridge temperatures are being monitored appropriately and that medicines are being stored within the required temperature range.

## Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

### Summary outcome: Standards not all met

Table 1: Inspection outcomes for standards under principle 1

| Standard                                                                                                                                                                               | Outcome of individual standard | Area for improvement/<br>Area of good or excellent practice |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-------------------------------------------------------------|
| 1.1 - The risks associated with providing pharmacy services are identified and managed                                                                                                 | Met                            | <b>Area For Improvement</b>                                 |
| 1.2 - The safety and quality of pharmacy services are regularly reviewed and monitored                                                                                                 | Met                            | <b>Area For Improvement</b>                                 |
| 1.3 - Pharmacy services are provided by staff with clearly defined roles and clear lines of accountability                                                                             | Met                            |                                                             |
| 1.4 - Feedback and concerns about the pharmacy, services and staff can be raised by individuals and organisations, and these are taken into account and action taken where appropriate | Standard not inspected         |                                                             |
| 1.5 - Appropriate indemnity or insurance arrangements are in place for the pharmacy services provided                                                                                  | Met                            |                                                             |
| 1.6 - All necessary records for the safe provision of pharmacy services are kept and maintained                                                                                        | <b>Not met</b>                 |                                                             |
| 1.7 - Information is managed to protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services                                              | Met                            |                                                             |
| 1.8 - Children and vulnerable adults are safeguarded                                                                                                                                   | Met                            | <b>Good Practice</b>                                        |

## Principle 2: Staff are empowered and competent to safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 2: Inspection outcomes for standards under principle 2

| Standard                                                                                                                                                                                              | Outcome of individual standard | Area for improvement/<br>Area of good or excellent practice |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-------------------------------------------------------------|
| 2.1 - There are enough staff, suitably qualified and skilled, for the safe and effective provision of the pharmacy services provided                                                                  | Met                            |                                                             |
| 2.2 - Staff have the appropriate skills, qualifications and competence for their role and the tasks they carry out, or are working under the supervision of another person while they are in training | Met                            |                                                             |
| 2.3 - Staff can comply with their own professional and legal obligations and are empowered to exercise their professional judgement in the best interests of patients and the public                  | Met                            |                                                             |
| 2.4 - There is a culture of openness, honesty and learning                                                                                                                                            | Standard not inspected         |                                                             |
| 2.5 - Staff are empowered to provide feedback and raise concerns about meeting these standards and other aspects of pharmacy services                                                                 | Standard not inspected         |                                                             |
| 2.6 - Incentives or targets do not compromise the health, safety or wellbeing of patients and the public, or the professional judgement of staff                                                      | Standard not inspected         |                                                             |

### Principle 3: The environment and condition of the premises from which pharmacy services are provided, and any associated premises, safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 3: Inspection outcomes for standards under principle 3

| Standard                                                                                                                 | Outcome of individual standard | Area for improvement/ Area of good or excellent practice |
|--------------------------------------------------------------------------------------------------------------------------|--------------------------------|----------------------------------------------------------|
| 3.1 - Premises are safe, clean, properly maintained and suitable for the pharmacy services provided                      | Met                            |                                                          |
| 3.2 - Premises protect the privacy, dignity and confidentiality of patients and the public who receive pharmacy services | Met                            |                                                          |
| 3.3 - Premises are maintained to a level of hygiene appropriate to the pharmacy services provided                        | Standard not inspected         |                                                          |
| 3.4 - Premises are secure and safeguarded from unauthorized access                                                       | Met                            |                                                          |
| 3.5 - Pharmacy services are provided in an environment that is appropriate for the provision of healthcare               | Standard not inspected         |                                                          |

## Principle 4: The way in which pharmacy services, including management of medicines and medical devices, are delivered safeguards the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 4: Inspection outcomes for standards under principle 4

| Standard                                                                                                                                                                                                                        | Outcome of individual standard | Area for improvement/<br>Area of good or excellent practice |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-------------------------------------------------------------|
| 4.1 - The pharmacy services provided are accessible to patients and the public                                                                                                                                                  | Met                            |                                                             |
| 4.2 - Pharmacy services are managed and delivered safely and effectively                                                                                                                                                        | Met                            | <b>Area For Improvement</b>                                 |
| 4.3 - Medicines and medical devices are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; supplied to the patient safely; and disposed of safely and securely | Met                            | <b>Area For Improvement</b>                                 |
| 4.4 - Concerns are raised when medicines or medical devices are not fit for purpose                                                                                                                                             | Met                            |                                                             |

## Principle 5: The equipment and facilities used in the provision of pharmacy services safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**

Table 5: Inspection outcomes for standards under principle 5

| Standard                                                                                                                                                                            | Outcome of individual standard | Area for improvement/<br>Area of good or excellent practice |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-------------------------------------------------------------|
| 5.1 - Equipment and facilities needed to provide pharmacy services are readily available                                                                                            | Met                            |                                                             |
| 5.2 - Equipment and facilities are: obtained from a reputable source; safe and fit for purpose; stored securely; safeguarded from unauthorized access; and appropriately maintained | Standard not inspected         |                                                             |
| 5.3 - Equipment and facilities are used in a way that protects the privacy and dignity of the patients and the public who receive pharmacy services                                 | Standard not inspected         |                                                             |

### What do the summary outcomes for each principle mean?

| Finding                      | Meaning                                                                                                                                                 |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| ✓ <b>Good practice</b>       | The pharmacy performs well against most of the standards and can demonstrate positive outcomes for patients from the way it delivers pharmacy services. |
| ✓ <b>Standards met</b>       | The pharmacy meets all the standards.                                                                                                                   |
| <b>Standards not all met</b> | The pharmacy has not met one or more standards.                                                                                                         |
