### Standards that were met with areas for improvement

#### Standard 2.1

- Team members are dedicated to their roles and are highly supportive of each other. But staffing

levels in the pharmacy, particularly on Saturdays mean there are times when team members are having to frequently break away from dispensing tasks to serve members of the public. This is heightening workload pressure in the dispensary and may increase the risk of a mistake occurring.

### **Standard 3.1**

- The pharmacy offers a professional environment for providing healthcare services. But some maintenance issues are yet to be resolved despite the team reporting them. This has the potential to affect workflow, security, and health and safety should the reported issues escalate in severity.

## Principle 1: The governance arrangements safeguard the health, safety and wellbeing of patients and the public

Summary outcome: **Standards met**
