### Pharmacy context and inspection background

The pharmacy is next door to a GP surgery in a residential suburb of Northallerton. It dispenses NHS prescriptions and sells a range of over-the-counter medicines. Pharmacy team members provide other NHS healthcare services including the Pharmacy First Service, the New Medicine Service and Blood Pressure Check service. And they provide some private services including a weight loss service and seasonal flu and covid vaccinations. The pharmacy provides medicines to some people in multi-compartment compliance packs to help them take their medicines at the right time. And it delivers medicines to people's homes when required.

This was an inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in January 2016.

### Areas of good practice

#### Standard 4.2

- The pharmacy has good systems in place to enable team members to carry out regular assessments with people to help ensure they can take their medicines safely. Team members consider a range of adjustments to find the most suitable for each person. And they regularly review these adjustments with patients and their carers to make sure they continue to be helpful, safe and effective.
