

# Registered pharmacy inspection report

## Pharmacy name: Pikes Lane Pharmacy

**Address:** Pikes Lane Primary Care Resource Centre, Deane Road, BOLTON, Lancashire, BL3 5HP

**Pharmacy reference:** 1085137

**Type of pharmacy:** Community

**Date of inspection:** 29/04/2025

### Pharmacy context and inspection background

This busy community pharmacy is located in a medical centre with four different GP practices. Most people who use the pharmacy are from the local area and a home delivery service is available. NHS dispensing is the main activity, and it also provides a number of other NHS services including Pharmacy First, the New Medicine Service (NMS) and the seasonal flu and Covid-19 booster vaccination service.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in October 2015, it had since changed ownership in December 2019.

**Overall outcome:** Standards not all met

**Required Action:** Improvement Action Plan

### Standards not met

#### Standard 4.2

- The pharmacy supplies medicines in multi-compartment compliance packs to people who require

additional support. But it does not always do this in a safe and effective manner. Compliance packs are not promptly sealed and checked which may result in medicines being misplaced. Cautionary and advisory labels are not included and patient information leaflets are not routinely provided. This means people may not have all the information they need to take their medicines safely.

## **Standards that were met with areas for improvement**

### **Standard 1.2**

- Members of the pharmacy team discuss mistakes when they are identified during the dispensing process, such as a near misses, to help learn from them. But they do not record details of the mistake or the actions they take. So they are unable to complete a review to help identify learning points from underlying themes, or demonstrate how they are improving the quality of the services they provide

### **Standard 2.2**

- Team members generally do the right training for their roles. But team members are not always enrolled on a course relevant to their role in a timely way. So this could mean that they do not always have the skills and knowledge they need to do their role safely and effectively.
