Pharmacy context and inspection background

This is a traditional community pharmacy is located next to a medical centre in a residential area of Smethwick in the West Midlands. People who use the pharmacy are from the local community and they usually collect their prescriptions from the pharmacy. The pharmacy team dispenses some medicines into multi-compartment compliance packs for people to help make sure they remember to take them.

This was an inspection of the pharmacy to follow up on information of concern received by the GPhC about the pharmacy's involvement in providing an online service including the supply of Pharmacy-only and General Sales List medicines via a third-party digital platform. This service had been introduced since the last inspection. Not all the standards were inspected on this occasion. The pharmacy was last inspected in September 2024 and all standards were met.
