

# Registered pharmacy inspection report

## Pharmacy name: Knights Gaer Pharmacy

**Address:** 51 Gaer Road, Gaer, NEWPORT, Gwent, NP20 3GY

**Pharmacy reference:** 1085920

**Type of pharmacy:** Community

**Date of inspection:** 18/02/2026

### Pharmacy context and inspection background

This community pharmacy was located in a small parade of shops in Gaer, Newport. It dispenses prescriptions and sells a range of medicines over the counter. The pharmacy provides a range of other services including the NHS Common Ailments Service. It also dispenses some medicines into compliance aid, to help make sure people take their medicines at the right time.

This was a full intelligence-led inspection of the pharmacy following information received by the GPhC. The pharmacy was last inspected in March 2019.

**Overall outcome:** Standards met

**Required Action:** None

### Standards that were met with areas for improvement

#### Standard 1.2

- Team members do not always record all of their mistakes. This could mean that some underlying patterns and trends are not detected and some opportunities for further learning may be missed.

## Standard 1.6

- Some records for higher-risk medicines are not always checked as regularly as they could be. This means that discrepancies may not always be swiftly identified.

## Standard 2.2

- Pharmacy team members do not always get regular feedback on their development. So, the pharmacy may not always be able to demonstrate how its team members learn and improve.

## Standard 3.1

- The pharmacy's patient facing areas are generally well maintained. But some areas of the pharmacy that are restricted to team members are showing signs of wear and tear which detracts from the overall professional appearance of the pharmacy.

## Standard 4.2

- The pharmacy does not always identify prescriptions for higher-risk medications. So some opportunities to provide additional counselling and monitoring may be missed.
- Processes for the supply of compliance aid packs are currently undertaken by one pharmacy team member. This may increase the risk of interruptions to the service in the event of staffing issues, which could lead to delays in patients receiving their medicines.

## Standard 4.3

- The pharmacy sources and manages its medicines appropriately, but gaps in fridge temperature records mean it cannot always demonstrate that temperature-sensitive stock is stored in a suitable manner.
