Type of pharmacy: Community

Date of inspection: 15/10/2026

Pharmacy context and inspection background

This pharmacy is situated inside a large superstore in Wigan. The pharmacy dispenses NHS prescriptions, and it sells some over-the-counter medicines. It provides the NHS Pharmacy First and contraceptive service. The pharmacy also provides seasonal flu, Covid-19 booster and meningitis B vaccinations. And it offers a private weight loss service.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in September 2016.

Overall outcome: Standards met

Required Action: Not Required

Areas of good practice

Standard 1.8

- The pharmacy demonstrates a strong safeguarding culture. All team members complete safeguarding training appropriate to their role. Staff confidently describe the actions they take

when identifying or managing safeguarding concerns and provide examples of concerns that have been appropriately escalated. The team has developed a practical safeguarding help sheet to support consistent decision-making and reporting, which complements the formal SOP. These arrangements help ensure safeguarding risks are recognised, managed effectively, and embedded into everyday practice.

Standards that were met with areas for improvement

Standard 2.1

- The pharmacy team generally remains up to date with dispensing work. However, due to the nature of the dispensing workload, they can struggle to maintain all aspects of the workload during periods of planned absence, sickness, annual leave, reduced staffing levels where cover is not always available, or when demand for pharmacy services is particularly high. As a result, some routine and less urgent housekeeping and SOP-related tasks may not always be completed in a timely manner.
