

Registered pharmacy inspection report

Pharmacy name: Botolph Bridge Pharmacy

Address: Unit B, Valley Park Shopping Centre, Sugar Way, PETERBOROUGH, PE2 9QY

Pharmacy reference: 1089505

Type of pharmacy: Community

Date of inspection: 09/12/2025

Pharmacy context and inspection background

This community pharmacy is located in a small shopping precinct next to a medical centre. Its main activity is dispensing NHS prescriptions. It also provides other NHS services including Pharmacy First, and flu and Covid vaccinations. It delivers medicines to some people. And it supplies medicines in multi-compartment monitored dosage packs to some people who need this support to take their medicines at the right time.

This was an intelligence-led inspection in response to information received by the GPhC. Not all Standards for registered premises were reviewed during this inspection. The pharmacy was last inspected in 2018 when all Standards were Met.

Overall outcome: Standards not all met

Required Action: Improvement Action Plan

Standards not met

Standard 1.1

- The pharmacy has written procedures in place to support safe working but there is evidence that these aren't always followed in practice. For example, dispensing mistakes are not recorded,

reported and reviewed in line with the procedures. And team members do not initial dispensing labels, making it harder to investigate incidents or identify any specific learning needs.

Standard 1.2

- Dispensing errors are not always recorded and reported. And the pharmacy cannot show that it properly reviews these events to identify improvements and to minimise the chance of similar events happening again.

Standard 2.2

- A team member who has been employed at the pharmacy for well over three months has not completed and is not currently enrolled on the required training for the role they undertake.

Standard 4.3

- The pharmacy cannot demonstrate that medicines requiring refrigeration are always stored at the right temperatures.
