Pharmacy reference: 1090941

Type of pharmacy: Community

Date of inspection: 15/07/2025

Pharmacy context and inspection background

This busy community pharmacy is located next to a medical centre. Most people who use the pharmacy are from the local area. The pharmacy dispenses NHS prescriptions, and it sells a range of over-the-counter medicines. And it provides a seasonal flu vaccination service, a Covid-19 vaccination service and some other NHS funded services including the Pharmacy First Service. It supplies some medicines in multi-compartment compliance aid packs to help people take their medicines at the right time.

This was a reinspection following an inspection in January 2025 where the pharmacy did not meet Standards 1.1, 1.2 and 4.3. This reinspection focused on those Standards which had previously not been met. Following the last inspection, the written procedures (SOPs) had been reviewed and read by most members of the team, and team members have started making records when things went wrong. The pharmacy has made other improvements, for example dispensary shelves had been tidied and most medicines were stored in their original packaging. But some areas of stock management require further improvement.

Standards not met

Standard 4.3

- The pharmacy cannot provide assurance that the temperature of the medical fridge is appropriately monitored and there isn't a robust date checking procedure for stock. This means the pharmacy cannot always provide assurance that medicines are in a suitable condition to supply. And it does not properly restrict unauthorised access to some higher risk Pharmacy medicines.
