This pharmacy is in the same building as Cowes Medical Centre with its own separate entrance at the rear. It also provides other services including NHS Pharmacy First and flu vaccinations in the autumn and winter seasons.

This was a routine inspection of the pharmacy which focused on the core Standards relating to patient safety. Not all the Standards were inspected on this occasion. The pharmacy was last inspected in April 2016.

Standards that were met with areas for improvement

Standard 1.6

- The pharmacy does not always fully complete all of its records. Examples include: not completing the time its responsible pharmacist(s) ended their shifts; not always including the prescriber details in its private prescription records and not having completed closing entries in its paper controlled drugs registers when they transferred them to a digital version. These all make it

harder to follow up any queries which may arise in the future, or increases the likelihood of entries being made in the wrong registers.
